### **Work specification:**

Project will take place in the southern province of Silesia, in Beskid Żywiecki, in the commune Rajcza. The project's activities will be directed to children, youth and local communities, with the participation of 3 volunteers from Spain, Portugal and Hungary. The aim of project is to get to know volunteer's country and culture, to exchange ideas for common activities and to discover their traditions, roots and history. We also hope that project will develop interests of voluntary work, active citizenship and creativity towards young people. The main topics of the project are youth, culture and art, also rural development. Project will be focused on organising intercultural classes dedicated art (music, theater, photography), IT competences, social skills for children and youth, promoting non and informal education of intercultural learning and enhance knowledge of volunteering. Participants will learn about culture and languages, social and political situation of volunteers' countries. Culture of volunteers' countries will be presented through handicraft workshops, folk dances, songs, theater, spontaneous happenings and sport. Volunteers will support artistic local initiatives in Association "We add wings", schools and will be involved in the cultural life of local society. Effects of the project will be a meeting - workshops on citizen european awareness, with photo's exhibition and movies presentation about EVS project and "result" prepare by volunteers about national stereotypes. Long-term result will be new projects prepared by our organisation and volunteers. We need volunteers who are open, energetic, active, creative, talented in many ways, with good organisational skills, with "initiative" and own ideas :D Volunteers who "add wings" to the others – just like we do ☺
